HORROR AND MYSTERY AT LAPORTE GROW.

Fifteen Persons Now Said to Have Been Victims of Arch-Criminal Record.

Nine Mutilated Bodies Have Been Exhumed from the Barn Lot of Mrs. Belle Guinness's Country Home and It Is Expected More Will Be Found—Police Advance Theory That Woman May Not Be Dead at All.

(BY DIRECT WIRE TO THE TIMES.)

LAPORTE (Ind.) May 6.—[Exclusive Dispatch.] The most astounding crime of the century, as baffling as it is horrible, continued to be unearthed here today, when four more bodies of murdered victims were discovered from the barn lot adjoining the home of Mrs. Belle Guinness, the former Chicago woman, who, with her three children, it is believed, met a fiery death in the burning of her house a week ago.

Nine bodies have been recovered from the crude burial place beneath the peaceful shades of a forest of pine trees a mile from Laporte, where the woman, though some doubt that she was ever there, is believed to have been confined for a period of years while the law and its agents of detection were in the hypnotic control of the woman believed to have committed the series of horrors, the end of which is not yet reached.

LURED TO THEIR DOOM.

The toll of the dead attributed to the murderous hand of Mrs. Guinness and her accomplices, if such there were, has now reached fourteen. With her own hand, though some doubt that she was ever there, is believed to have been confined for a period of years while the law and its agents of detection were in the hypnotic control of the woman believed to have committed the series of horrors, the end of which is not yet reached.

POSSIBLY SHIPPED THERE.

Whether all the victims of the death-tragedy of the suspected woman were taken to the place where they were found, is a question, and there is evidence of a suspicious nature relating to the discovery of the bodies. It is believed that the bodies were taken to the place where they were found, and that the woman was taken to the place where they were found.

THINK SHE IS DEAD.

That Mrs. Guinness has not fled and that the body found in the fire with her three children was her own, is the belief of Coroner Mack and Prosecuting Attorney Smith tonight. Though they had some doubt before, the story told by Joseph Maxon tonight regarding the receipt of a letter from Mrs. Guinness the day before the fire indicated that the modern LaCretia Borgia was driven desperate and hopeless by the fear that her murderous record was to be exposed.

"I was sent to the postoffice by Mrs. Guinness on the Monday before the fire," said Maxon. "That is the only time I was ever sent there for the mail. I got several letters. I took them out to the place and gave them to Mrs. Guinness. She opened one of them and a look of terror spread over her face when she read it. She muttered something about a man coming to investigate the disappearance of his brother. She grew hysterical, and I heard her say:

"They are coming to look for Helgelein. They are going to find out what became of him."

"All that day she was in a state of nervous frenzy and the result was the fire which destroyed her home and burned up herself and her children. This was followed by the visit of John Helgelein of Aberdeen, S. D., who today positively identified one of the corpses taken from the Guinness barnyard graveyard as that of his brother Andrew, who came here in answer to a matrimonial advertisement, to consult Mrs. Guinness and who gave her \$200 before he was cruelly murdered. His body cut into bits and buried in a gunny sack on the Guinness farm.

Strength to the theory that the woman is dead and not a fugitive who substituted the body of some other woman in the burned home was added today when it was positively established that she was not in the best of financial standing. She left \$10 in the bank here, and just before she was threatened with a mechanic's lien suit by Laporte lumber company she destroyed the suit when Helgelein

WILL MEET ON STUMP.

Mrs. Longworth to Combat the Theories of Socialism With Countess of Warwick.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, May 6.—[Exclusive Dispatch.] The Countess of Warwick, England's famous socialist agitator, will be pitted against Mrs. Alice Longworth, daughter of President Roosevelt, in the Congressional campaign in the Eighth Ohio District next fall.

That both women will make speeches from the stump has just been learned. Some weeks ago, Representative Longworth told Ralph D. Cole, Republican nominee, that he and Mrs. Longworth would make speeches in the district for Cole. Today, E. G. Wharton of Kenton, socialist candidate, announced that the Countess of Warwick had agreed to visit the district on a speaking tour in his behalf.

It is said that the Countess will make a money contribution to the campaign, believing a chance to put a real socialist in the United States Congress at hand.

Inclement Weather at Lakewood Has Bad Effect on Distinguished Patient—Mrs. Cleveland Says "His Condition is as Good as Could Be Expected."

(BY DIRECT WIRE TO THE TIMES.)

LAKEWOOD (N. J.) May 6.—[Exclusive Dispatch.] There was a slight turn for the worse today in the condition of Grover Cleveland at the Lakewood Hotel. The inclement weather has had a bad effect upon the patient, and it was reported tonight that he was slowly sinking.

Dr. Joseph D. Bryant is at Mr. Cleveland's bedside. This morning he was relieved by Dr. Lockwood, who is the chief physician here. Cleveland's condition is as good as could be expected.

MANUEL TAKES THE OATH.

Proclaims His Ideals to Be Nation's Prosperity and Winning of the People's Love.

(BY THE ASSOCIATED PRESS—P.M.)

LISBON (Portugal) May 6.—Manuel, the boy King of Portugal, solemnly took the oath of allegiance to his people today and with all the traditional courtesy of the nation.

The day was observed as a holiday and the city was aglow with brilliant sunshine and a myriad of flags and flowers. The king, who was accompanied by his mother, the queen, and his father, the king, was accompanied by his mother, the queen, and his father, the king.

After the oath had been taken, King Manuel read the following discourse:

"My ideal is the nation's prosperity and my ambition is the winning of my people's love."

From the balcony of the Parliament building, Manuel was formally proclaimed king by the grand standard bearer of the realm, whereupon the shouts of the heralds of "long live the King" arose, and the booming of guns carried the news throughout the city.

Upon the conclusion of the ceremony the King returned to the Necessidades Palace.

LIMIT TO SOUL KISS.

Duration in Prospect Park, Brooklyn, Must Not Exceed One Second, Say Police.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, May 6.—[Exclusive Dispatch.] A "soul kiss" of more than one second in duration will not be tolerated in Prospect Park, Brooklyn, this summer, Police Inspector O'Reilly has given imperative instructions.

"Love making, in its proper place, and done according to the strict code prescribed by Cupid, is all right," he said, "but I object to hugging and kissing when it is carried to excess."

Capt. Lawrence Murphy says he is worried over the delicate position in which his men will be placed. The police are instructed to be gentlemanly on all occasions, not to be harsh with the lovers, and to be instructed to walk very heavy when they believe it time for a "soul kiss" to stop and may whistle, cough or slap their hands as if attempting to scare a squirrel.

AEROPLANE FLIES WELL.

Wright Brothers Make Successful Test in North Carolina.

(BY DIRECT WIRE TO THE TIMES.)

MAINTO (N. C.) May 6.—[Exclusive Dispatch.] Wright brothers, the aeronauts now at Kill Devil Hill, near here, made a first flight in their new airplane this afternoon. Although but a test flight, it was successful in every respect, the machine in perfect control of its two makers, traveling for a distance of 1000 feet. Apparently it could have been flown 1000 times as far just as easily as not.

It was made to alight with ease and perfect safety. The flight was for the purpose of testing a new idea in steering gear. This proved unsatisfactory, but it was found that its adjustment was not altogether right, but this did not prevent a continuation of the flight.

The flight was made in a light northeast wind of fourteen miles an hour, accompanied by heavy weather. The elevation of the machine did not reach more than twenty feet above the ground.

After several preliminary tests to be made during the next two or three days, an endurance test of the machine will be made and on this test an effort will probably be made to fly the machine to Cape Henry, a distance of seventy-five miles, and return. Before the tests have been completed, experts representing the United States and foreign governments are expected to witness them.

GRAIN MOVING IN STEADY STREAM.

ARMOUR AND PATTEN RUSHING IT OUT OF CHICAGO.

Former Has Chartered Boat Room for Shipment of One Million Bushels This Week, While Latter Will Send Out Ten Million, Plus Hundred Thousand.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, May 6.—[Exclusive Dispatch.] J. Ogden Armour and James A. Patten, who control practically all of Chicago's stocks of wheat, corn and oats, are rushing grain out of Chicago in a steady stream.

The Armour Grain Company has chartered boat room for 1,000,000 bushels of wheat to be shipped by one of its grain elevators, while Patten has taken lake charters for 1,500,000 bushels.

Patten is financing the largest line of actual grain ever handled by one man, having taken in fully 10,000,000 bushels of corn and oats on delivery since May 1, and Armour is in control of about 5,000,000 bushels of wheat.

With further charters likely to go before the end of the week, it is estimated that about 4,000,000 bushels of grain out of a total of 10,000,000 bushels in local elevators will have been cleared or will be under charter to move out.

This outflow sets a new weekly record of grain shipments from Chicago or any other grain center of the world.

BELIEVE SHE WAS MURDERED.

Two Men in Walla Walla Jail Suspected of Having Murdered Mrs. Anna Aldrich.

(BY DIRECT WIRE TO THE TIMES.)

TACOMA, May 6.—[Exclusive Dispatch.] George W. H. or "Bud," and Jack Barnes, brothers, are in the County Jail at Walla Walla, charged with the murder of Mrs. Anna Aldrich, a wealthy ranch owner of Dixie, a wealthy ranch owner of Dixie.

"Bud" was seen with the woman the day she disappeared last Friday. He says she went to Walla Walla, but no trace of her can be found there, and the officers are inclined to believe she was murdered. "Bud" has told the officers several different stories. It is claimed.

Mrs. Aldrich is a wealthy woman and owns one of the finest ranches in that part of the country. When arrested, Barnes was in possession of the place, and the officers had verbally leased it for a long term of years.

A reward of \$1000 for the recovery of Mrs. Anna Aldrich, dead or alive, was offered in Dixie this afternoon. A call for volunteers to conduct a systematic search for the body has been made.

HER INCOME TOO SMALL.

Daughter of Second Cousin of President Roosevelt Cannot Live on \$5000 a Year.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, May 6.—[Exclusive Dispatch.] Living in the swirl and vortex of the society of Sayville, L. I., for more than \$5000 a year for President Roosevelt's second cousin's seventeen-year-old daughter, Miss Olga Roosevelt. The young lady should have at least twice that amount of pin money, according to her father, Robert B. Roosevelt, Jr.

Mrs. Roosevelt, who is Miss Olga's guardian under the will of her mother, in his petition to the Supreme Court says his daughter "needs at least \$10,000 a year for her maintenance, education and support in the manner and style to which she has been accustomed, and according to her estate and condition in life."

Justice Cox was designated as referee to hear and determine in this case of Robert B. Roosevelt, Jr., against Olga Roosevelt.

REGULARS CONTROL.

Have Big Majority in Convention.

No Doubt That They Will Organize It and Name All Committees.

Lincoln-Roosevelt League's Absurd Claims Refuted by Figures.

At Outside Renegades Will Have Only Two Hundred Twenty-seven.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, May 6.—[Exclusive Dispatch.] Additional returns, received today from different parts of the State, including San Francisco, Los Angeles, Sacramento, San Diego and other large centers of population, indicate that the regular Republicans will have a majority of at least 125 of the 623 delegates who will assemble in State convention at Sacramento on May 14. The Lincoln-Roosevelt League will have at the outside 227 delegates to 623 for the regular organization.

A fair estimate of the representation in the convention follows:

Delegates to convention, 623.

Regular or organization Republicans, 402.

Lincoln-Roosevelt League, or anti-125.

Majority of regular Republicans, 115.

The leaguers are making most absurd claims, and the indications are that the number of delegates allowed them in this outside estimate of their strength will be materially reduced after and official returns. It is not unlikely that a roll call of the convention will show the regular Republicans in control by two to one.

There is no question that the regulars will organize the convention by electing the chairman and appointing all the committees. The regulars will also elect the delegates-at-large to the national convention and choose the next Republican State Central Committee for California.

Among the ridiculous boasts of the leaguers is the carrying of Alameda county. The regulars have at no time claimed the Fifth District, which is the home of former Gov. Pardee, Charles S. Rook and other active leaguers. The Fifth-second is the Berkeley District where the professors of the State University do academic politics and the regulars have never had the tenacity to claim this district. The Forty-eighth was never considered to be in the regular column and no fight was made by the organization to carry it.

The claim of great gains in Solano county, made by the leaguers, is one of the amusing antics of that movement, for they have nothing there. In Humboldt county the leaguers also claim a blank. It is estimated to find solace in the fact that Assemblyman Cullen, one of the officers of the league, is on the ticket. Cullen was named by Judge Hunter, who is Humboldt's new candidate for Congress, and was nominated and elected in the interest of harmony. The delegation is organization.

In its clutching for straws of comfort the league has claimed Santa Cruz. In that county the new movement nominated two ex-postmasters, an ex-assemblyman and an applicant for appointment as postmaster, whose chances of securing the place are added to be nil. The ticket was defeated by the regulars, two to one.

Ventura, Napa, Santa Barbara and San Mateo, which have been claimed by the reactionaries, are about the only counties where the leaguers have a delegation and some of its members.

DEMOCRATS TALK OF FOLK.

Party May Compromise on
Missouri's Governor.

Is Logical Nominee in Case
of a Deadlock.

Leaders Informally Discuss
the Situation.

(BY DIRECT WIRE TO THE TIMES.)
CHICAGO, May 6.—(Exclusive Dis-
patch.) Joseph W. Folk's name as a
possible compromise candidate for the
Democratic nomination for President
came into prominence today.

The occasion was the conference of
Democratic national leaders, who will
start for Denver tomorrow evening,
and the suggestion was made that the
Missouri Governor might be slated as
the temporary chairman of the Den-
ver convention.

Chairman Thomas Taggart, Sec-
retary Urey Woodson, and Norman S.
Mack of New York, three members of
the national committee, met with
Roger C. Sullivan, State Chairman
Boonchestein and Frank J. Quinn of
Peoria, John P. Hopkins and George
E. Brennan were among those present.

While there was unanimous denial
that there was talk of any Presi-
dential possibilities, it is known that
the name of Folk was broached as a third
candidate in case less than two-thirds
of the delegates are for Bryan and
less than one-third for Johnson.

The suggestion to make Gov. Folk
the temporary chairman carries with it
the intimation that he would be ex-
pected to deliver a heavy caliber
speech, which would make him the
logical nominee of the convention in
the event of a deadlock.

Four years ago Bryan wanted Folk
nominated at St. Louis. Folk, however,
declined. He went to Folk's St. Louis home
and pleaded with him to allow the use of
his name again. Mr. Folk, then
Circuit Attorney of St. Louis, had
good reasons for refusing.

Gov. Folk has had a conference with
Mr. Bryan at Lincoln, since the cam-
paign for delegates has been in pro-
gress. The belief was expressed to-
day that if Bryan fails to get the
nomination on the first ballot he will
immediately direct the withdrawal of
his name in favor of the Missouri Gov-
ernor.

NOISE.

OHIO DEMOCRATS ARE DISORDERLY.

PRESENCE OF POLICE IN CON-
VENTION IS NECESSARY.

After Lively Scene Judson Har-
mon Is Nominated for Governor
Over Candidate Favored by Tom
Johnson, Who Refused to Make
Nomination Unanimous.

(BY THE ASSOCIATED PRESS.—A.M.)
COLUMBUS (O.), May 6.—Judson
Harmon was nominated for Governor
and resolutions strongly endorsing W.
J. Bryan for President and instructing
the delegates to the national con-
vention to vote for him were adopted
by the Democratic State Convention
today. Harmon was nominated on
the second ballot after a lively
time, during which a squad of police-
men were called in to maintain order.

The defeat of Mayor Tom L. Johnson
last night had not discouraged him
and he announced readiness to carry
the fight against Harmon to the floor
of the convention.

Johnson's attack upon Harmon here
provoked the latter and he telephoned
from Cincinnati that he was deter-
mined to win the nomination for Gov-
ernor if possible.

After the temporary organization
had been made permanent and the
report of the Resolutions Committee
adopted, Mayor Johnson nominated
Alton Pomeroy of Canton for Gov-
ernor.

Alfred Cohen of Cincinnati nomi-
nated Judson Harmon and the latter's
name was vociferously cheered. A.
P. Sandies was nominated by R.
L. Starr, George W. Hull nominated
Gen. Sherwood; the latter withdrew
after the first ballot. The first bal-
lot resulted as follows:

Harmon, 461; Pomeroy, 281; Sher-
wood, 4; Sandies, 27.

Efforts to procure change of votes
were made and Theodore Bracken of
Cincinnati became the center of dis-
putants to stand pat. The delegates
stood on chairs and shouted at him
and a wild scene of disorder prevailed.

Six policemen were sent to the hall
to preserve order. The police then re-
sumed and the chairman asked the po-
lice to arrest any man who would not
sit down. The police then forced all
back into their places until the begin-
ning of the second ballot. It resulted
as follows: Harmon, 512; Pomeroy,
261; Sandies, 27.

Harmon was nominated. Hamilton
county cast the same vote on the sec-
ond ballot as on the first. Calls were
made for Tom L. Johnson to move
Harmon's unanimous nomination, but
he did not claim the floor.

D. S. Creamer of Belmont county
was nominated for State Treasurer.
CINCINNATI, May 6.—On receiving
notice of his nomination, Judson Har-
mon sent the following telegram to
the Ohio Democratic Convention:

"I regard the nomination as both a
high honor and a call to duty. I thank
you for the honor, and with the help
of God will perform the duty. To the
Democracy as their candidate, to the
people of Ohio as their Governor, if
they shall confirm my selection."

gress to meet at his apartments Sun-

VIEW OF NEW YORK FROM TOP OF TALLEST BUILDING IN THE WORLD. HORROR AND MYSTERY.

The metropolis from the top of the Singer Building.

NEW YORK, May 6.—Your corre-
spondent, with several other news-
paper men, was accorded the courtesy
of a "first public view" from the top
of the Singer building, in Lower
Broadway—at present the tallest
structure in the world. The trip
through the building was followed by
an informal luncheon given by the
company. In a traction elevator, the
correspondents climbed up to the fortieth
story in forty-five seconds. The recep-
tion committee smilingly explained that
the ascent could be made in ten
minutes, but the law sets a speed
limit of 60.

The last hair-raising stage of the
trip, which the reception committee
termed the forty-fifth degree, consist-
ed in climbing out onto the crowd's
nest at the foot of the flag pole. Only
a few of the party would submit to
this ordeal, which entailed crawling
out onto a piece of sheet iron about
two feet square, surrounded by a low
iron railing. Those of the party who
managed to overcome their positive
fear of heights, and who were given
a view of the city from the top of the
Singer building, were rewarded with
a glass of champagne.

From the crow's nest view on the
top of the Singer building, the city
of New York, with its dense popula-
tion, its numerous skyscrapers, and
its wide expanse of water, was seen
in a new light. The view was truly
magnificent, and the party who
managed to overcome their fear of
heights, were rewarded with a glass
of champagne.

The reception committee took par-
ticular pride in the rooftop construc-
tion. No wood is used anywhere. Even
the door casings and window casings
are lightly constructed of steel, skill-
fully stained and grained to resemble
wood.

To illuminate the exterior of the
building an ingenious plan has been
devised. Such parts of the walls as
are not reached by the sunlight are
dotted with 500 incandescent lights,
hidden from the street by a covering
and throwing their rays back
against the building in such a way
as to produce a phosphorescent effect.
It is believed the tower, so illuminated,
will be visible beyond Sandy Hook,
Hedge City, and the Highlands of Navesink,
and west over the Orange Mountains.

WOLGAST GETS DECISION.
Knocks Out Frankie Nell, California
Wonder, in Hard-Fought Battle
in Milwaukee.

(BY DIRECT WIRE TO THE TIMES.)
MILWAUKEE (Wis.), May 6.—(Ex-
clusive Dispatch.) Wolgast, the
Kalamazoo boy, who a year ago was
fighting in Milwaukee bouts as a pre-
liminary entry, and whose services
were worth possibly \$15, tonight
worked his way another step toward
the top of the featherweight ladder
by winning the decision over Frank-
ie Nell, the California wonder, in a bat-
tle which was marked by some clever
work by the defeated boy, but by
such power behind Wolgast's punches
that the Californian was all but
knocked out once.

On the eighth round Nell took
the count in the eighth round, stag-
gering to his feet and stalling through to
the going, repeating the performance in
the tenth.

have been the daughter of Mrs. Gun-
ness. The girl was about 3 years old. Mr. H. H. Martin
of Laporte was called to attend her
one night, and diagnosed the case as
an attack of cholera. Three days
later the child was dead. Dr. Martin,
not having been called in the interim,
refused a death certificate and the
infant, it is said, was buried without
fulfillment of the legal requirements.
The coroner is considering the ad-
visability of exhuming the body for
the purpose of an autopsy.

The Gunness farm was a mecca for
sightseers today. The crowd became
so dense that the road was choked, and
it was almost impossible for late com-
ers to force their vehicles through the
press.

With morbid interest the men, wom-
en and children pushed their way to-
ward the spot where the Sheriff and
his men were turning up the earth, and
refused to draw back. Finally the
Sheriff appealed to the police to keep
the crowd back.

Relieved of the hindrance, the ex-
cavators redoubled their efforts, and
within half an hour were rewarded.
First a few scattered bones were
turned up, then a skull was unearthed.
Digging around this, another corpse
was exposed, and beyond this a sec-
ond, and yet another in this second
chamber pit is believed to be that of a
woman. The other two, and that found
earlier, are probably those of men. Of
the nine cadavers, seven are males. All
are remains of adults, the two smaller
bodies found yesterday.

Those at first thought to have been
those of children, proving otherwise
when the bones had been inspected by
the coroner and his assistants today.

The best view which has yet been
had of the bones was from the top of
the excavation, looking down into the
chamber. The bones were found in a
heap, and it was not until the earth
was cleared away that the bodies were
discovered.

The discovery of the last three
bodies today, John A. Welker, a de-
liverman, and Leo Ware, his employ-
ee, told of having carted heavy trunks to
the Gunness farm in the summer and
autumn of 1906. Clyde Sturgis, em-
ployed by Foster & De Garmo, an-
other livery concern, remembered that
the two took two similar trunks to the
place about a year ago. In addition,
several heavy boxes marked with
various "potatoes" and "wall paper" were
carried to the house at different
times.

House Republican Caucus Agrees on Plan.

Basis for Emergency Currency Approved.

Recommend Commission to Consider Question.

(BY THE ASSOCIATED PRESS.—P.M.) WASHINGTON, May 6.—At 11:20 o'clock tonight the Republican caucus of the House, commenced itself by vote of 115 to 21, to the principle of commercial paper as an asset upon which to issue additional circulation in time of emergency.

This is in accordance with the Vreeland bill, but by separate action the resolution was amended so to eliminate Mr. Vreeland's name from the bill.

By another vote the caucus decided to recommend the appointment of a commission to consider the currency question, and report a bill at the next session of Congress. Coupled with this provision was another providing for the immediate appointment of a committee of five members to draft a new bill in accordance with the action of the caucus and along the general lines of the second bill.

In accordance with this action the chair appointed as such committee, Messrs. Vreeland of New Jersey, Burton of Ohio, Weeks of Massachusetts, McKinley of Illinois and Knowland of California.

Under the terms of the resolution, the committee will be expected to appoint a perfected bill to an adjourned conference to be held next Monday evening.

WORKED BACKWARD.

WOULD RESULT TO THEIR GOOD.

CONSUMERS SO ASSURED BY PAPER TRUST.

So Assured One Publisher, but Says Prices Were Advanced Before Year Was Up—Found It Difficult to Make New Contracts for Paper at Any Price.

(BY THE ASSOCIATED PRESS.—A.M.) WASHINGTON, May 6.—Several publishers of newspapers appeared today before the House committee investigating the wood pulp and printer paper question.

Frank P. McLennan, publisher of the Daily State Journal of Topeka, Kan., stated that when the combination of paper makers was formed the publishers were told not to get excited, as it would result to their benefit in the end. His contract for paper at that time, he said, was \$1.34 per 100 pounds at the mill. This contract, he said, ran from September, 1917, to September, 1918. When the contract expired he was unable to renew it at that price. The best figure he could get in making a new contract was \$1.35 at the mill. On that and preceding contracts he had been allowed a 3 per cent. discount for cash, but during the last five years the prices have been set.

Mr. McLennan told of his difficulty in securing new contracts, and submitted to the committee figures which were furnished by Representative Campbell of Kansas, a member of the Ways and Means Committee, by Frank Gilbert, president of the Frank Gilbert Paper Company at Watford, N. Y., and also a stockholder in the International Paper Company.

These figures, Mr. McLennan said, astonished him because of their incorrectness. According to them, the selling price of newspaper in 1917 was \$4. Mr. McLennan said that in that year he was paying \$1.34 at the mill.

In reply to questions by Mr. Miller, Mr. McLennan said his paper was Republican in politics, and he thought the passage of the new law, removing the duty on wood pulp and printer paper, would benefit the whole country, including the publishers.

MANY GOVERNORS TO ATTEND.

Forty-four States and Territories to Be Represented at White House Conference.

(BY THE ASSOCIATED PRESS.—A.M.) WASHINGTON, May 6.—Forty-four Governors of States and Territories will participate in the White House conference on natural resources which will be held here next week. All of these have definitely promised to attend, including Gov. Frazier, who is making a 4000-mile trip from Hawaii specially for the conference.

Gov. Hughes will not attend the special session of the New York Legislature to interfere with his attendance. Seven States may not be represented by their Governors, California, Georgia, Oklahoma, Oregon, Tennessee, Texas and Nebraska.

Gov. Gillett, of California is detained through the present necessity of entertaining the officers and men of the battleship fleet, and Gov. Chamberlain of Oregon has said he probably will be unable to come.

The White House is to suggest to these seven that they may use their Lieutenant-Governors as substitutes.

LETTERS ARE PRODUCED.

Correspondence of Hyde, Benson and Diamond Read in Court, Show Diamond Was Benson's Attorney.

(BY THE ASSOCIATED PRESS.—A.M.) WASHINGTON, May 6.—Forging what is claimed to be the connecting link in the chain of circumstances laid around Hyde, Benson, Schneider and Diamond in the alleged public-land conspiracy, on trial in the Criminal Court, the government today placed in evidence a large number of letters which were written by Hyde and Benson to Diamond while Diamond was in Washington, in 1911 and 1912.

It was agreed by the attorneys that Diamond's letters in the possession of the defense should be read at the same time, so that the jury might have a clear understanding of the significance of the letters and answers.

Practically all of the correspondence related to the acquisition by Benson

Examinations Postponed.

WASHINGTON, May 6.—It was announced at the Navy Department today that the examination for assistant paymasters in the navy, originally set for June 8, had been postponed to June 15. They will be held in Washington. There are several vacancies in the corps of assistant paymasters at this time.

Revenue Cutters Authorized.

WASHINGTON, May 6.—The Committee on Interstate and Foreign Commerce today reported favorably a resolution authorizing the constructing of four revenue cutters at a cost not exceeding \$225,000, for service in the waters of Key West, Fla.; the Pacific Coast; Lake Superior and Narragansett Bay.

UNUSUAL.

GOV. CURRY TO VISIT ARIZONA.

CHIEF OF NEW MEXICO TO TOUR SISTER TERRITORY.

Accompanied by Staff, He Will First Call Upon Gov. Kibbey at Phoenix, and Then Visit the Most Prominent Towns—Hopes to Expedite Statehood Matters.

(SPECIAL CORRESPONDENCE OF THE TIMES.) SANTA FE (N. M.) May 2.—It has been announced here that Gov. George Curry and his entire staff, including a number of prominent men of the Territory, will make a tour of Arizona the latter part of this month, or immediately upon the Governor's return from Washington.

Following the meeting at Phoenix, Arizona, he will hold a conference with the chief officials, both Territorial and Federal, while there. Matters of importance to the two Territories will be discussed, the chief of which will be the statehood matter.

The conference report on the army appropriation bill, carrying an aggregate of \$28,450,000 less than the bill carried when first passed by the Senate.

Senator Warner of Missouri concluded his speech on the Brownsville affair, his closing remarks being a statement from Senator Foraker that the President recently wrote to Senator Smith of Michigan to the effect that he had not changed his mind as to the grant of land to the twenty-fifth regiment.

Mr. Foraker suggested that the introduction of that letter in the Senate would be interesting, but Mr. Smith said he had not made it public and could not do so.

The Senate at 5:55 p. m. adjourned.

CANTEEN REMAINS OUT.

House of Representatives by Overwhelming Vote Declines to Re-instate It in Soldiers' Homes.

(BY THE ASSOCIATED PRESS.—P.M.) WASHINGTON, May 6.—By the overwhelming vote of 137 to 46, and following a two-hour debate, the House again went on record against the reestablishment of the canteen in national soldiers' homes.

In the House discussion, a man giving his name as George F. Gridley of Providence, R. I., unfurled an American flag and proceeded to make an address from the gallery on the number of 4000 were on board these vessels, adding somewhat to the population of the city during the period of each vessel's visit.

The amount of food of lumber shipped in during the thirty days totals 31,795,000. The Norwegian steamer Edda, discharged here 16,117 sacks of nitrate, amounting to 2,622,500 pounds. Oil shipped outward amounted to 35,400 barrels.

SPECIFIC COMPLAINT.

The former charge against Thomas Nelson, ex-deputy tax collector, was dismissed in the Recorder's court this afternoon, and a new complaint was filed charging the sum of \$48.50 on March 15. This examination was set for May 15. Bail was fixed at \$250.

Nelson was arrested on April 6, on the general charge of embezzling public money, and was accused of covering up his misdoings by manipulating figures.

HEMET.

HEMET, May 6.—At the Republican caucus Monday evening eleven delegates to the Riverside county convention were selected, to be voted on at the primary election. They are: P. Milliken, H. S. Dukes, J. W. Crump, W. R. Rafter, C. T. Stetson, C. O. Gilbert, S. W. Leffingwell, L. L. Newton, C. J. Davidson, E. T. Boughn, J. A. Edwards. A majority of the ticket favored Stetson for Assemblyman, and Meharg for Senator. Tuesday morning an opposition ticket for delegates was in evidence, causing the election to be hotly contested. As the state stands since the election, it reads: P. Milliken, H. S. Dukes, C. J. Davidson, C. M. Dietterich, W. S. Rafter, William Bradford, J. F. Ferguson, S. W. Leffingwell, John M. Clayton, J. A. Edwards and J. W. Crump.

The declining popularity of the present government of Great Britain was again revealed as the result of the bye election in Wolverhampton yesterday, the result being: G. R. Thorne, Liberal, 4515, and L. S. Amery, Unionist, 4504. In 1906 the Liberals had 2465 majority.

SIXTIETH CONGRESS.

CHILD LABOR BILL PASSES.

Senate Approves Measure for District of Columbia.

Also Passes the Army Appropriation Bill.

Asks If Railroads Are Complying With Law.

(BY THE ASSOCIATED PRESS.—P.M.) WASHINGTON, May 6.—The Senate today passed a bill prohibiting the employment of children under 14 years of age in the District of Columbia in any factory, workshop, telegraph office, restaurant, hotel, apartment house, saloon, pool or billiard room or bowling alley, or in the transportation or distribution or transmission of merchandise or messages. No such child is permitted to work at any employment for wages during school hours, nor before 6 a. m. nor after 7 p. m.

The Senate also adopted a resolution offered by Mr. Foraker, directing the Interstate Commerce Commission to inform the Senate whether the commodity clause of the interstate commerce act had been complied with since May, 1907, and if not, what would be the compliance by the railroads has been due to any agreement, arrangement or understanding between the railroad companies and the Interstate Commerce Commission.

An amendment by Mr. Culberson, agreed to, also called on the commission to state its reasons for recommending an extension of two years in the time given the railroads to comply with the commodity clause.

The conference report on the army appropriation bill, carrying an aggregate of \$28,450,000 less than the bill carried when first passed by the Senate.

The Great For Don Extends His Liberal Offer 3 More Days

Positively the Last Week to Take New Cases for Ten Dollars and Include All Medicines.

Since the Great For Don has instructed his Medical Experts to treat cases for ten dollars, so great have been the crowds that they have been unable to treat all those who have called, and many have been turned away, but this week as who call will be treated, therefore by request the time and offer has been extended for one week only. Hundreds of people are being cured weekly of chronic diseases, such as liver, stomach, kidney, bladder, heart and female trouble, also catarrh, gleet, gonorrhea and cancer, at their office, 749 South Main St. This special offer enables the poor as well as the rich to avail themselves of the golden opportunity to seek health and happiness. If you have called at our office and been examined and were unable at that time to take treatment your case will now come under this special offer. Office hours 10-12 a. m., 2-4 p. m. and 7-9 p. m.

The World's Best Spring Tonic and Stimulant.

Doctors of All Schools Agree That the Best Tonic-Stimulant to Build up the System, Run Down and Enfeebled by the Long Strain of Winter, and to Drive Out Spring Fever and Malaria is Duffy's Pure Malt Whiskey.

We take the liberty of publishing a few of the thousands of letters received from leading doctors throughout America extolling the merits of this great Spring tonic and invigorator.

Effective Stimulant

In a recent letter A. J. Park, A. M., M. D., of 220 E. 5th St., Chicago, Ill., wrote: "I am too busy to write my opinion, experience and results of the administration of Duffy's Pure Malt Whiskey to weak, feeble and debilitated patients, but I will repeat, emphatically and pointedly, my confidence in the purity and remedial excellence of your Malt Whiskey. It is a first-class and most valuable tonic and stimulant, and every indication where a stimulant is needed, I will always give Mr. Duffy with a smile and a cordial reception from grateful recognition of his transcendent merits."

Wholesome Tonic Stimulant

C. A. Sheridan, M. D., Oswego, N. Y., recently wrote: "I take pleasure in recommending Duffy's Pure Malt Whiskey to the medical profession, as it fills a long felt want in the treating of our patients."

There is a demand for a pure and wholesome tonic stimulant. Such we have in Duffy's Pure Malt Whiskey, and always found it uniform as well as potent on the market.

If you wish to keep young, strong and vigorous and have on your cheeks the glow of perfect health, take Duffy's Pure Malt Whiskey regularly, according to directions. It tones and strengthens the heart action and purifies the entire system. It is recognized as the world's leading medicine everywhere.

CAUTION—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey be sure you get the genuine. It's the only absolutely pure medicinal malt whiskey and is sold in sealed bottles only; never in bulk. Price \$1.00. Look for the trade-mark, the "Old Chemist," on the label, and make sure the seal over the cork is unbroken. Write Dr. R. Curran, Consulting Physician, for an illustrated medical booklet and free advice. Duffy Malt Whiskey Co., Rochester, N. Y.

Black Ballots

The negro does not vote
—in the South. That is
the palpable truth, and truth
is always interesting.

Southern elections have
become almost dull. Un-
warlike citizens go to the
polls, and their hip pockets
are distressingly empty.
Nowadays it is legal regula-
tion, and not a shotgun,
which is disfranchising the
negro.

In this week's issue of
THE SATURDAY EVENING
POST Harris Dickson writes
about "The Dwindling
Black Ballot."

IN THE BIG INDUSTRIES.

Reduce Hop Production.

The prohibition movement that is
sweeping the country is resulting in
reduced consumption of hops by brew-
ers, and a reduced acreage will un-
doubtedly be planted another year. It
is estimated already that the acreage
in New York State will be reduced by
from 5 to 10 per cent. In Oregon
there will be a reduction of about 10
per cent, while in Washington the
decrease may amount to from 20 to
40 per cent. It does not yet appear
that California will make any reduc-
tion.

A still greater reduction than this
will be necessary, according to men
whose ideas are by no means radical.
A normal yield with the present acre-
age, after allowing for the much-dis-
cussed reduction, would be in the
neighborhood of 300,000 bales, which,
if marketed at the present price, would
give a million dollars. Meantime, Eng-
land, which is the largest consumer of
hops, is planning to reduce their im-
portations from the United States that
the industry may be protected at home.

Steel Earnings Very Low.

The earnings of the United States
Steel Corporation for the last quar-
ter were less than one-half those for
the corresponding quarter last year.
The total net earnings were \$18,229,000,
compared with \$39,122,492. The sur-
plus of \$1,880 was the smallest for a
quarter since the corporation was or-
ganized. One redeeming feature of the
report for the quarter ended March
31, however, was found in the fact that
the net earnings for March showed a
material increase over those for Janu-
ary and February, while the February
net earnings were a trifle better than
those for January. Net earnings for
January amounted to only \$5,927,442,
the smallest since January, 1904, when
\$2,888,212 were registered. February
net earnings reached \$5,708,428, also
the smallest for any February since
1904, and the March earnings amounted
to \$7,464,434, likewise the smallest March
earnings since 1904.

Silk Manufacture Improving.

The United States has become the
largest consuming country of silk
goods in the world. It is also the
largest consumer of raw silk in the
world, with the possible exception of
China, where no reliable estimates of
the domestic consumption are avail-
able for comparison. This is the state-
ment of Franklin Allen, secretary of
the Silk Association of America. The
amplitude of the equipment of Ameri-
can silk mills is shown by the follow-
ing figures: Fifty-five thousand power
looms on broad fabrics, 15,000 power
looms on narrow fabrics, and 1,400,000
spindles making silk yarns, tram and
organzine. This is a summary of the
silk mill equipment in sixteen States
of our Union. No other country, not
even France, has so great a pro-
ducing capacity of staple articles in
silk, and no other country is so well
organized to distribute merchandise to
its consumers in every section.

Armor Plate for Banks.

The reduced demand for standard
shapes of steel has caused the Car-
negie Steel Company to seek new mar-
kets for the company's products. Thus
the armor plate department, which has
almost been knocked out of business
by the competition of the Midvale
Steel Company, has been turned to
making armor plate for bank vaults.
Forty of the vaults have been built
to date, and there is said to be more
in this class of work than profit
in making armor for warships.

Mufflers for the Navy.

A silk mill firm in Paterson, N. J.,
has just been awarded the contract
for supplying 60,000 black silk mufflers
for the United States Navy. The
cost of the mufflers will be about
\$53,000. They will be about a yard
square and of the finest black silk.

The Dairymaid's Disease.

Mrs. S. T. Rorer, the cooking ex-
pert, tells this story: "Only the other
night, dining with some friends of
mine, I saw a maid drop and break
a superb platter that contained two
roast canvasback ducks. Our host did
not permit this accident to rattle him.
While we waited for some other course
to be substituted for the last one, he
said: 'You must excuse that maid.'

Rough on the Candidates.

"There's a candidate outside wants
to see you," said the hired man.
"Hang the candidate!" exclaimed
the farmer.
And the hired man went out mut-
tering: "I hain't lynched a man in a mighty
long time, but if he ain't too much
for me, I'll follow instructions."—[At-
lanta Constitution.]

was destroyed by fire yesterday. The
loss is not known, but the hotel prop-
erty carries insurance of \$248,000.

GAME STOPPED
BY DARKNESS.Teams Battle for Twelve In-

Hit Over the Fence.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, May 6.—(Exclusive Dispatch.) Twelve innings of the most exciting kind of ball was served up to the fans at Recreation Park today, and when umpire O'Connell called the game off at the end of the twelfth inning an audible sigh of relief was heard.

It was not a pitchers' battle, but a game full of hits and sensational fielding, which every fan thoroughly enjoyed. The Angels found "Red" Wright for thirteen innings, while the Commuters landed on Dolly Gray's delivery for the same number, and five of these were two-runners.

The Commuters obtained a big lead in the first few innings. In the opening frame, after Cook had been thrown out at first, "Pop" Van Halten singled, slatted, and scored. Heinle, Altman drew a pass, but Truck was thrown out at the plate on Heinle's grounder to second. Dashwood ended the inning by the Nagle-to-Dillon route. The Oaks scored one more in the third on a two-bagger by Statler. Dashwood's single and a wild throw home by Oaks.

This ended the scoring till the sixth, when Los Angeles found Wright easy for four singles and incidentally three men crossed the plate. Smith opened with a bingle to the left grand, stole second, went third on a swift one to right by Ellis, and came home on a single to left by Delmas. Nagle's single to left scored Ellis and Delmas.

This ended the scoring in this frame, but the Looooks came back and added two in the seventh on hits by Heinle and Statler, and a double steal worked by Smith and Ellis.

In the eighth Heilmuller put one over the fence, and the Oaks tied it up in the ninth when Eagan, having been given a walk, scored on singles by Statler and Altman.

Nothing was done the next three innings, and Jack O'Connell then decided to call the game, as it was too dark to see the ball.

NEW MEN TO BE

CARD FOR MAY 15.Card to Be Selected Today—North-
ern Boxers May Be Pitted Against
Local or Eastern Men—Big Fellows
Demand Too Much and Are to Be
Sidelined for Time.

Manager McCarrey of the Pacific Athletic Club is arranging a show, Tuesday, May 15, in which he is to put on as many of the new boxers as are available. It will be a try-out for newcomers and youngsters.

McCarrey figures that the fight "has" want to see some fresh men in the ring, and in addition to that it is claimed that the men who have been here quite a while are attempting to dictate their own terms. It is the plan to give these men a rest and let some of the more willing ones have a chance.

Not a match has yet been made, but McCarrey proposes to begin today to arrange his card. Two or three men may be brought down from San Francisco to meet local men or easterners. Engle, who may be given another chance; then there is Jimmy Gardner, Jimmy Walsh, Harry Dunn, and others. Dale Gardner from San Francisco wants to get on here, and he is willing to fight Jimmy Gardner.

Jimmy Gardner and George Menzies may be given a bout at San Francisco or Oakland. Gardner will make 145 for Menzies, and the figure may satisfy him as he desires to enter the welterweight class. Gardner and Menzies are being considered in some quarters.

An effort is being made to match Jimmy Daley, Sprague, and Alvin Menzies, and such a match may be put on at the next show. Menzies made a good showing against Alvin Menzies, and as he has grown almost into the featherweight class he should be stronger and a pretty good match for the class.

Kike Kutches and Harry Dunn may be put on. Kutches was to have been matched with Monte Attell at Bakersfield, but no agreement could be reached with the club managers.

Chase, who is a local boy, is found in the ranks of the real newcomers. McCarrey could find enough of them to fill out a pretty good try-out card, but he is not sure of the better known who have not appeared in some time.

Be Sure

Do not trust to much to your judgment in medical cases. Consult your doctor frequently. He knows best.

Hard colds, bad coughs, severe bronchitis, weak throats, weak lungs. We wish you would ask your doctor if he knows of anything better for these troubles than Ayer's Cherry Pectoral.

We believe it is the best medicine you could possibly take. But ask your doctor, and thus be sure.

THE CITY IN BRIEF

"Seeing stars!"

NEWS AND BUSINESS.

Still Capitulating.

For various reasons, one of which is that a report is not yet ready on the meeting of the University Improvement Association, scheduled for tonight, has been postponed to the first Thursday in June.

Twice to Main Convention.

Mrs. Eleanor J. Neal, of No. 636 East Adams street will leave the 28th inst. for Philadelphia, as a representative of California to the national convention of the Knights and Ladies of Security, which will be held on June 8. Mrs. Neal was a representative two years ago, when the organization met in Denver.

Early Adjournment.

The Federal Court at Fresno adjourned yesterday, much earlier than was expected. A number of matters in the northern division were disposed of, and six indictments were returned to the grand jury. The local courtroom is undergoing extensive alterations and there will be no session of the Circuit and District courts for some time.

Series of Free Lectures.

Rev. David Russell of South Africa, during his brief stay in Los Angeles, will speak at the University of Southern California and at Occidental College. Sunday afternoon he will give an address to men at the First Methodist Church under the auspices of the Young Men's Christian Association, and Sunday evening he will speak in the First U. P. Church. Monday evening he will give his stereoscopic lecture at the Auditorium, entitled "From the Cape to Zambesi." All these meetings will be free. Women and men are specially invited to the Monday evening lecture.

BREVITIES.

Our new store, 204 South Broadway, \$1.50 to \$5 eyeglasses and spectacles at only \$1.50. We will save you 30 to 50 per cent. on optical goods. Scientific examination; satisfaction guaranteed; consultation free. Clark's Optical Parlors, new location, 204 South Broadway, near Second street.

Ladies should attend the grand opening Saturday at Postgate & Root, 440 So. Broadway, a real paradise, excellent music.

Lewis Single Binder straight So. Most smokers prefer them to the 100 cigars. Penial Hall, 227 S. Main st. Gospel meetings, noon and night, daily. 1841 Wild Bungalow open June 11.

POLICE INSPECTION.

Force Complimented on Good Work and Fine Showing, and Two Medals Presented.

Bronze medals, in recognition of excellent service, were presented to Sgt. Charles E. Sebastian and Patrolman Anthony Connelly yesterday morning at the annual inspection of the police force.

Connelly received a medal for valor displayed in the arrest of Menkl, who murdered Patrolman Patrick Lyons. His medal bears the seal of the city on one side, and the word "valor" on the other. It was generally supposed that Connelly would receive this medal. The selection of the officer to be presented with the medal for fidelity was not made until the Mayor and his commissioners reached the inspection ground at Eighth and Olive streets. There, after a conference, Sebastian of the Chinatown squad was selected and called from the ranks. Sebastian policed the Chinatown district during the long war, and three attempts were made to kill him. Mayor Harter highly complimented all the men upon their good work and fine showing.

Two hundred officers were in line.

Handicaps

What a terrible handicap it must be not to have a large stock for a customer to select from. A tailoring establishment can also be handicapped by not having good cutters and workmen. We have eliminated all of these.

Our stock is the largest in the city and you can find anything that you want—all of the latest shades, newest patterns and best fabrics.

We employ only the best and most skilled workmen and you can feel sure that a B. & K. suit is excelled by none in design, workmanship or material.

THE PUBLIC SERVICE

SUMMARY OF THE DAY.

Los Angeles automobile dealers yesterday appeared before the Police Commission and complained that they are not getting a square deal in the enforcement of the speed ordinance.

The Harbor Commission addressed a letter to members of the City Council, voicing opposition to the granting of a railway franchise in the river bed. The figures of the City Tax Collector, as given out yesterday, show the amount collected this year to be far in advance of the total levy last year.

Gilbert E. Collins was convicted of the forgery of a B clearinghouse certificate by a jury in Department One yesterday.

Judge Bordwell heard evidence in the injunction suit brought by the Physico-Medical College of California and other stockholders against Dr. J. L. Johnston, president of the Ora Copia Mining and Milling Company, and others, to set aside an alleged illegal trust deed.

Owners attacked by the proposed widening of San Pedro street testified before Judge Conroy regarding property values for which damages have been awarded.

Justice Frederickson urges street-car companies to adopt a rule defining the rights of passengers to stand in the aisles of coaches.

Harbor Commission Notices the Council of Opposition to River Bed Franchise—Nearly Million More Tax Money Is Collected Than Entire Levy Last Year.

A committee from the Automobile Dealers' Association appeared before the police commission yesterday in the interest of a more liberal policy on the part of the police toward drivers of machines.

The spokesman of the committee said they have no fault to find with the ordinance, but that they wish to protest against the frequent arrests for technical violations of the speed law, for instance, when a man inadvertently happens to be driving at the rate of a mile or two faster than the law permits.

"The policy of the police," said the spokesman, "when dealing with offenders, is in the line of prevention, but in the case of violations of the speed law, for instance, when a man inadvertently happens to be driving at the rate of a mile or two faster than the law permits, the police go out in plain clothes, hide behind some obstruction and step out and nab a man driving an automobile, though the driver may have no idea he is violating the law. There are so many cases where the law is not strictly followed that it seems to me that it would be fairer if the officer would warn a man when he is running too fast, and if he is caught, he would be given a chance to stop before he is arrested."

"We are not making technical offenders, but there have been far more complaints against automobilists than any other class of law-breakers, and have given the men instructions not to arrest a man for a first offense unless he is exceeding the law by more than four miles an hour."

The chief declared that the driver of a hired automobile ought to go to jail for driving faster than the law allows, as he is paid by the hour and gets more money by going slow.

Other members of the committee called attention to trifling violations for which they have been arrested and fined, such as having no tail-light, or dust having gathered on the number until it cannot be read at any great distance. They asked that in such cases a driver be warned, for in the case of the light, it is common for it to go out while driving, a rule has just been adopted among the automobile men compelling chauffeurs to pay their own bills when arrested for speeding, and the owners claim the effect has been magical in reducing the number of offenses.

The matter is in the hands of Police Commissioners Lewis and Woodill and Chief Kern, who will meet committee from the Automobile Club and the dealers' association within a few days and thrash it out to mutual advantage.

COMMISSION ON RECORD.

AGAINST HARBOR RAILROAD.

Members of the City Council yesterday received a letter from the Harbor Commission, opposing the proposition to give a franchise in the river-bed to the Los Angeles Harbor Railroad Company. There is quite general opposition to the plan, and those who ought to know say there is little likelihood of the franchise now going through, in the face of the sentiment developed. The letter, among other things, includes the following:

"The Harbor Commission considers that the bed of the Los Angeles river provides for the city a natural and practical inlet and outlet for its commerce to and from deep water at San Pedro harbor, and that therefore, in the discharge of our duty, we are bound to take notice of the rights of our citizens toward the granting of the franchise."

The commission then advises against granting the franchise, under any consideration, but if it is done, that there be a clause giving to any other persons the same right when they agree to pay a pro rata share of the expense; also to provide for its purchase by the city, if it so desire. This will be one of the questions taken up in the committee of the whole on Saturday.

BIG TAX TOTALS.

FIGURES NOW COMPLETE.

The money this year passing through the hands of the City Tax Collector goes into big figures, when compared with former years. The total for collection was \$2,010,731.90; of this, the bulk of the office showed yesterday that the payments have amounted to \$2,387,572.50, leaving delinquent, \$185,879.40. While the delinquency is larger than for several years, the total collected up to yesterday is \$62,594.33 greater than the entire tax levy of the preceding year, and \$1,414,618.19 greater than the total levy of the year 1934-5, indicating the great prosperity that has attended the city during the past two years.

"NO JELLY SOUND."

CALL HER PROPER, NOW.

Mayor Harper received a letter from a man in Arkansas, who is positively sensitive about the pronunciation of the name of his native State as

we are about the pronunciation of the name of this favored city. He asked for a correct pronunciation of the name of Los Angeles, and the Mayor referred it to the City Librarian, who yesterday transmitted the following reply:

The name is pronounced 'Loe-ah' to rhyme with 'dough.' 'Ang-el-ess,' approximately. The most vital thing is the hard 'G.' there is no jelly sound in Spanish.

Heat for Workhouse.

The Police Commission yesterday informed a request from Chief Kern asking that the Board of Public Works advertise for a heating plant for the new workhouse, which is now approaching completion. The time for expiration of the contract passed some time ago, but owing to a desire to have the work properly set and also on account of the intervention of rainy days, the time for the extended Chief Kern said yesterday he thought the building would be completed in six weeks, adding that he needed the room and was anxious to get possession.

Education Investigation.

City Auditor Albert J. Kern, with the assistance of deputies from his office, is going over the books of the Board of Education to verify the figures of the accounts, which formed the basis of the Auditor's report to the City Council two weeks ago. He hopes to have a report ready for the meeting of the Council on next Monday, in response to the allegations made by representatives of the board that his former report was incorrect.

EPWORTH LEAGUE ELECTIONS.

At the annual business meeting of the Epworth League of the First Methodist Episcopal Church Tuesday evening officers were elected as follows: President, John Poole; first vice-president, Oscar Schurman; second vice-president, Byron Hanna; third vice-president, Mrs. Anna Lawrence; secretary, Miss Effie Shearer; treasurer, D. Lawson Reed.

AT THE COURTHOUSE.

RAISED SCRIP.
FOUND GUILTY.LEGALITY OF ISSUE ATTACKED
IN CRIMINAL TRIAL.

Attorney Asst. Tammpering With Clearinghouse Certificates Cannot Be Felony, Since State Constitution Prohibits Circulation as Money of Unauthorized Instruments.

"Under the constitution of California, the issue of clearinghouse certificates last fall was illegal, and the certificates were void, therefore they could not be forged, nor can they be held for a criminal offense," said Attorney W. M. Rex yesterday in moving Judge James to instruct a jury to acquit Gilbert E. Collins, a waiter, of a charge of forgery.

"By our statutes, both criminal and civil," said Mr. Rex, "individuals and corporations are prohibited from circulating any instruments as money, except such as are authorized by the Federal government. The first offense of this kind, by our statutes, is made a misdemeanor, while a second offense is made a felony. Mr. W. Murray, an officer of the Clearinghouse Association, has testified here that the clearinghouse certificates were circulated to be used as money. As such an issue is illegal, my client cannot be held for the offense of forging them."

"I shall not pass on this point; it is one for the Supreme Court," Judge James replied, in denying Attorney Rex's motion. After Collins had taken the stand in his own defense, the case went to the jury, which found him guilty. He will be sentenced next Wednesday morning.

Collins and his brother, William H. Collins, attended November 25, last, to pass on Max Gore, who keeps a cigar stand at Seventh and San Pedro streets, a B clearinghouse certificate, which had been raised to \$10. Gore had then arrested immediately. The brothers then said, as Collins testified in his trial, that they had been given the raised certificate in exchange the evening before at a Main street cafe, and had not noticed the cheat perpetrated on them. Officers R. T. Williamson and T. H. Heston testified that in Collins's room they found muclaire, scraps of paper and practice strips of a writing intended to show that the boys had perpetrated the fraud themselves.

SHOWS LETTERS.

LOVE AND BUSINESS MIXED.

Tender missives alleged to have been received by H. O. Barrett, erstwhile promoting genius of the Homeowners' Land Company, the Industrial Workers' Association of the World, and a piano voting contest for the benefit of Pico Heights schoolkeepers, were waved in Judge James's court yesterday by Attorney H. H. Appel, who threatened to put them in evidence in Barrett's suit against his brother-in-law, Henry J. Rafferty, sued for \$250, the alleged unpaid price to a brother-in-law.

"You had better keep still if you don't want this letter read," said Appel, threateningly to one of the boys who began to comment on his cross-examination.

"All right," he retorted, "but just show some of the other letters also." The letters were not read, however, and the case closed without revealing the nature of their contents.

Barrett says that when he told his brother-in-law that he had received a letter from H. O. Barrett, the latter failed to pay him the full amount of the purchase price. About two months ago Barrett received a letter from H. O. Barrett, who threatened to put them in evidence in Barrett's suit against his brother-in-law, Henry J. Rafferty, sued for \$250, the alleged unpaid price to a brother-in-law.

"You had better keep still if you don't want this letter read," said Appel, threateningly to one of the boys who began to comment on his cross-examination.

"All right," he retorted, "but just show some of the other letters also." The letters were not read, however, and the case closed without revealing the nature of their contents.

OWNERS COMPLAIN.

COURT HEARS THEIR OBJECTIONS.

Although seventy-one property owners are affected by the proposed widening of San Pedro street to eighty feet from Aliso street to Fifth street, at a cost to the city of about \$50,000, the representatives of but four estates appeared before Judge Conroy yesterday to present objections to the amounts awarded by the referees in the eminent domain suit.

over \$46,183, while E. S. Webster, W. Webster and A. N. Flinn asked \$25,321 instead of the \$46,183 allotted them. The First Chinese Presbyterian Church files the damage to its property at \$12,122 instead of \$2200 awarded, while Mr. and Mrs. R. Gollmer opposed a valuation of \$11,320 placed on property they valued at over \$60,000.

COLLEGE SUES.

Dr. J. L. Johnston's alma mater, the Physico-Medical College of California, which is alleged to have received as a gift a large block of stock in the Ora Copia Mining and Milling Company, represented in Judge Bordwell's court yesterday as one of several stockholder plaintiffs who have brought an injunction suit against Dr. Johnston, as the corporation's president, G. L. A. Richter, secretary.

Charges that the defendants entered into a conspiracy to fraudulently appropriate the corporation's mineral holdings in Riverside county are the ground on which the court is asked to restrain the Tule Insurance and Trust Company from selling the property.

The court is also asked to set aside a report read at the meeting of the board made to Mrs. Alma B. Richter in July, 1935, in security of an alleged loan of \$25,000.

The plaintiffs assert that Mrs. Richter never loaned the money for which she received the stock, but that the transaction was a conspiracy to defraud the corporation of its mineral holdings. They deny any illegality in the transactions authorized by the directors.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.

NATURALIZATION. Judge Hutton yesterday admitted to citizenship H. D. A. Jackson, Albin Swanson, B. O. Jordan, John M. Moe, H. B. Jensen, Harry Hills and Alessandro Amato.

ADULTERY.

Charged by George Andrew, No. 610 South Hope street, with living in adultery with Mrs. Anna Andrew, Long Beach, Joseph Coleman was arraigned before Justice Summerfield yesterday and committed to the County Jail, pending his examination tomorrow morning. Coleman's friends say that the charge is brought as the result of a property difference between Mr. and Mrs. Andrew, as the latter has refused to deed a portion of the community property to her husband, and has placed a homestead on Long Beach property she occupies.

STEPPED OFF. H. C. Scott yesterday filed in the Superior Court a \$2500 damage suit against the Pacific Electric Railway company for injuries alleged to have been sustained by him October 13, last, when he stepped from a car at Long Beach and American avenue. Long Beach, Scott says the car was stopped negligently.

MERCHANDISE. Alleging that in May, 1936, the defendant refused to receive a contract order for 5000 barrels of cement, A. Carpenter yesterday filed in the Superior Court a \$50,000 damage suit against W. P. Fuller & Co., and others.

LAND DEAL. Mr. and Mrs. J. J.

Upon yesterday filed in the Superior Court a suit against the West Naples Company and others to recover \$1500 and to set aside a contract of sale for two West Naples lots purchased by them in 1935. They allege that the defendants have not carried out improvements according to agreement.

NUISANCE. Judge Conroy sustained the American Agricultural Company's demurrer to the \$54,000 damage suit brought against it by the Park Land Company and other owners about Huntington Park on the ground that the fumes from the defendant's plant constitute a public nuisance. The court held that the complaint was indefinite in specifying the nature of the claims, and in describing the property interests of the plaintiffs.

INCORPORATIONS. Articles of incorporation were filed with the County Clerk yesterday by the J. P. Newman Estate, capital stock \$70,000, and the Ivy Social Club of Ivy.

WILL FILED. Mrs. Lena Hellmuth, executrix and sole heir under the will of Henry Althaus, who died here April 23, leaving a \$16,000 estate, filed the will in the Superior Court yesterday for probate.

DATE SET. Justice Summerfield yesterday set for May 9 at 2 o'clock, Dolph Greene's examination on a charge of obtaining money under false pretenses from P. Bergman, in selling him a clear stand.

is invariably fatal to players; they
are never again satisfied elsewhere.

MUSIC AND THE STAGE.

The Nellis, James and Edythe, sat on
a long bench at the side of the Bur-
bank's stage during rehearsal yester-
day—just as they used to do in the
days when the stock game in Los
Angeles was somewhat younger than
now—and far less advanced.

"One touch of California is fatal
to any player," said Mrs. Neill; "after-
wards, there is no satisfaction in liv-
ing—or existing—elsewhere."

"The last time I left California I
cried for two days, and I expect I
shall weep as much more when we
have to go on this time."

This is the first visit of Mr. and Mrs.
Neill, in a professional way as far as
the stock stage is concerned, in a num-
ber of years. With Tim Frawley and
one or two others the Neills, the vet-
eran front rank of our theatrical Old
Guard. They came when the town
was virtually a straggling village, and
in several seasons of stock work which
was remarkable for its fine ensemble,
they, and their associates, established
a standard which has since sufficed
to maintain local productions upon an
unusually high plane.

After leaving here, at the conclu-
sion of their last stock season, they
played extended engagements in Oak-
land, San Francisco, Seattle and other
Coast cities and then returned to New
York. Here Mr. Neill was chosen to
play Desires in the all-star revival of
"London Assurance," the cast also in-
cluding Ellis Jeffreys, Eben Plympton,
W. H. Thompson, Joseph F.
Whitlock, Jr., Murray Carson, Her-
bert Sleath and Ida Conquest.

Then came another season in San
Francisco and Oakland, this time for
twenty-eight weeks, at the end of
which time they jumped straight back
to New York, playing in the all-star
cast of "What the Butler Saw."

"But," as one of the Butler's as-
sociates said yesterday, "this Butler was
only two weeks of financial dis-
tress, and then his light went out."

At this juncture the San Francisco
earthquake, punctured all budding
hopes of immediate return to the west-
ern field, and they decided to play a
summer stock season in Rochester,
New York, their home town. They
carried out the scheme, surrounded by
a number of people who had played
with them in Los Angeles.

Following this they had a tour in
vaudeville, and then, with Henry Mil-
ler and Lee Shubert, Mr. Neill made
an elaborate metropolitan production
of "The Light Eternal," with himself
and Mrs. Neill in the principal parts.
It ran, counting its New York en-
gagement and its tours, for five
months.

Another vaudeville engagement was
followed by Mrs. Neill's appearance at
the New Astor Theater, New York, in
the revival of "A Midsummer Night's
Dream." It was she who spoke the
first line out over those footlights.

Before going back East, she prob-
ably will take the Josie Millward role
in the first local presentation of "The
Hypocrites." The Neills will play a
summer stock engagement in St. Paul.

Friends of Mr. and Mrs. Dick Ferris
saw them off on the Los Angeles Lim-
ited yesterday morning, and the "off"
came near being literal for Richard,
as the handshaking process on the
platform continued until the train had
actually started, when it required the
joint efforts of Charley Pike and sev-
eral other Salt Lake officials to get
the actor-manager aboard.

The station platform looked like the
floor of a flower store, and masses of
roses and carnations decorated the
drawing-room, in which they rode, and
also their table in the dining car.

Carlos Yorea, boy soprano, assisted
by Ricardo Jopé, tenor, gave an in-
vitation recital last evening in the pa-
lars of the Los Angeles Theater. The
affair was a distinctly classical en-
tertainment, attended by a limited
number of guests.

The recital given on Sunday even-
ing, April 26, by the First Methodist
Episcopal Sunday-school orchestra, un-
der the direction of Earl Bishop Valen-
tine will be repeated tonight at the
church.

Assisting soloists will be Miss Fan-
nie Marple, contralto; Spencer Robin-
son, tenor, and G. Lee Miller, violin-
ist and concert-master of the orches-
tra.

An important addition to the pro-
gramme as presented formerly will be
a very complete transcript of "The
Merry Widow," which Mr. Valentine
has arranged for full orchestra.

This evening's musicale will be the
seventeenth given by the orchestra.

Campbell's orchestration have
failed to arrive from New York, and
so the "Tribal" concert scheduled for
tomorrow afternoon, at the Audi-
torium, has been postponed, the new
date to be announced next week.

Cool Linen Suits

Our grandmothers knew just about as much as possible of how to
keep cool by cool dressing. They had no electric fans, no patent ice
coolers, no motor cars or trolleys to alleviate the power of a summer
sun. They had to think for themselves, and they thought out LINEN.
And we of today haven't succeeded in finding any material at once
more dainty and cool.

Only by coming here can you realize the breadth and excellence of the stocks represented in linen
suits of highest quality. One beauty about them is that they wash so satisfactorily, though many
women will get a season's wear out of them without laundering. There are some suits that are as
carefully and strictly tailored as are the finest wool suits—and the even blue and white stripes and
combinations of colors are exact counterparts of imported wool materials, too. Trimmings are in some
instances of self shades, in others, contrasting silk or satin.

Plain linen colors, and pink, blue, lavender and green, as well. Not a few of the choicest styles
are trimmed with hand-made laces, inspect as much as you like; the longer you look the better the
values will appear to you.

White grounds with brown, blue or black narrow
even stripes form the foundations; clever touches
of lace, tiny tucks and like embellishments add
the touch of individuality to each garment. Man-
darin sleeves play a prominent part in the more
dainty styles; long sleeves look best in the severe
tailored models. Beau Brummel ruffles and knife
plaitings tone up certain of the waists in a very
effective manner. Prices are very little
for styles so extremely good; \$6.50 to \$8

New Cotton Volles

Visions of the most charming

wear, and longer.

Your choice of large or small checks on white
grounds in blue, black, brown, lavender, pink

similar effects, and of even or fancy stripes in
all colors. Best of all they're brand-new, and

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

MAY FIND NEW SKY WONDERS.

BIGGEST LENS EVER CAST IS COMING TO PASADENA.

One Hundred inches in Diameter and Weighs Four and Half Tons. Former Prohibition Candidate for Presidency Tells of Heavens' Ignorance of Christianity.

Office of The Times, No. 25 S. Raymond Ave., PASADENA, May 7.—With the return of Prof. George E. Hale, after a three weeks' eastern trip, comes the news that the eight-foot lens, weighing four and a half tons, has been successfully cast in Saint Gobain, France, and will soon be shipped to New York and thence to this city, where it will be ground and finished.

This is the first lens of such size ever cast. It measures 100 inches in diameter, is 15 inches thick, and is expected to reveal new suns and stars when once it is installed on Mt. Wilson.

Prof. Hale, who is the head of the Carnegie Solar Observatory force, ascended Mt. Wilson yesterday. Last night he stated that everything had gone to his utmost satisfaction during his absence, and that the five-foot lens, now finished and in the Santa Barbara street shop, will probably be in use by fall.

The work of repairing the trail to the summit of the mountain has been completed beyond the half-way house and to a point known as "The Desert." The entire trail will be in condition for hauling within two weeks.

Twenty men are at work on the observatory, and the dome of the lower, where the five-foot glass will be placed, is nearly finished, and the installation of machinery will soon be begun. The lens will not be taken to the summit until midsummer, or later.

While in the East, Prof. Hale read a paper at the annual meeting of the American Philosophical Society in Philadelphia and delivered what is known as the "Haleman" lecture, under the auspices of the Smithsonian Institution, in Washington, D. C.

Prof. Charles F. Johnson, who will be a member of the staff of the observatory, has arrived in this city. He served as dean in Oberlin College and was head of the physics department. He spent his summers for many years in study at the Yerkes observatory near Chicago.

BUNGALOW SOLD.
The transfer of a seven-room modern bungalow at No. 148 West California street, valued at \$2500, was reported by the William R. Staats Company last night. The seller is M. L. Gunkel, but the name of the buyer is withheld. The lot on which the building stands is 38 by 175 feet, and fronts on California street.

LEVERING SPEAKS.
Joshua Levering, millionaire coffee dealer, prohibition candidate for the Presidency in 1936, addressed a large audience at the First Baptist church last evening. He is enthusiastic for the spread of missionary work abroad, and has just completed a tour around the world, during which he investigated mission fields. He says that there are 700,000,000 people who have never heard of the Christian religion. To reach them the United States contributes \$5,000,000 each year. He expressed the opinion that if Christians expended as much energy as the financial interests, every heathen in the Orient would be converted in the next generation.

THREE ANNUAL MEETINGS.
Healthy activity in all departments of church work was shown in the annual reports made by officers of the First Christian Church at the annual meeting last night. In spite of the fact that the congregation has been building a large church, it has plenty of funds on hand. The trustees, who were re-elected, are T. M. Lancaster, Louis H. Turner, Mac H. Pierce, J. H. Byrum and A. Meacham. A supper preceded the meeting.

At the annual meeting of the First Universalist church, last night, the choice of a pastor for the coming year was considered. Rev. R. G. Dunham's sixth term has expired but the vote in favor of his remaining at the head of the church was unanimous. He has received two calls to large churches and last evening he would not commit himself as to his intention.

The annual meeting of the congregation of the Church of the Angels was largely attended and the officers were elected: Warden, D. Z. Gardner; treasurer, Fred H. Smith; and clerk, F. E. Kibel. Delegates elected to the General Convention, to be held in St. Paul's Pro-Cathedral in May, are C. S. Campbell-Johnson, D. Z. Gardner, R. P. Bloodgood, James B. McGrath and C. H. Greenhaw.

The following resolution, a tribute to the resigned rector, Rev. Milton S. Humble, was unanimously adopted: Resolved, by the Mission Church of the Angels, that we most heartily thank Rev. and Mrs. Humble for their untiring efforts in behalf of this church, and approve the splendid work which they have done, and, further, as we here assure them, that they shall always have our very best wishes and prayers for their success.

Y.M.C.A.'S BIG WEEK.
Capt. Richmond Pearson Hobson, U. S. N., and Congressman from Alabama, will speak at Lore Opera-house on Friday night under the auspices of the Y.M.C.A. His subject being "America's Mission as Peacekeeper Among the Nations." As his visit to the Coast is supposed to be in behalf of the four new battleships which the President wants, the lecture will have a peculiar interest.

On Thursday night the Mandolin Club of the Y.M.C.A. gives its annual concert at the Shakespeare Clubhouse. Elaborate preparations are being made for the first annual Y.M.C.A. outdoor circus, to be given on Tuesday night of next week.

PASADENA NOTES.
The Board of Trade will participate with the C. A. I. in the observance of Memorial Day.

Judge H. H. Kline and Rev. George Coulton of Los Angeles will speak before the Corona Lodge of Masons in this city tonight.

Lured by the prosperity he found in the Tropics country in Mexico, Virgil S. Lockett, who returned to this city some weeks ago, sold his business here this week and is now in a future home in the southern republic.

Harvard and Los Angeles High School relay teams will run off their undecided race at Tournament Park Saturday.

Scottish Rite Masons will hold their annual banquet at Hotel Maryland on June 2. J. C. Willett is chairman of the Committee of Arrangements, and is assisted by William H. Vedder, Dr. J. C. Frazier and H. W. Wadsworth.

The contest for the M. W. Davis gold medal and one offered by J. Herbert Hall, will be held on Friday night at the High School.

RISKS LIFE TO SAVE PATIENT

LONG BEACH DOCTOR ENTERS GAS-FILLED HOUSE.

Lamp Burning on Table and Explosion Expected, but He Does Not Hesitate—Helpless Old Man Rescued—Woman Pastor and Missionary Mistaken for Thieves.

LONG BEACH, May 6.—The fortunate arrival of Dr. J. M. Holden, last night saved a sick man from asphyxiation. In his efforts to remedy existing conditions, the doctor tempted death, but escaped without injury.

Dr. Busche, an aged German, is caretaker of a house at Fourteenth street and Atlantic avenue, and lived alone. For several days he has been quite ill and under the care of Dr. Holden. Last night the physician did not go to see his patient until after 5 o'clock. Upon his arrival at the house he was startled to hear groans. He opened the door and was almost overpowered by escaping gas. In the dim light he saw a woman sitting on the bed and a lamp burning with the wick turned high.

Although realizing that there might be a terrific explosion at any moment, the doctor plunged into the house and threw open every door and window. Then, fighting his way to the patient, he found the gas turned on full force, in the range, and shut it off. His patient he found almost unconscious and it required two hours' work to restore him.

Dr. Holden says that in all his life he has never had a greater fight. He could taste gas for an hour after leaving the house, but was not affected seriously.

Busche had undertaken to prepare a meal, but feeling weak, lay down on the bed and thought a gust of wind blew the flame of the stove out. Waking up to find himself stifling with gas fumes, he was unable to move or call for help.

WRONG WOMEN ACCUSED.
Two fearful and excited women—accused Officer Gullmore on the beach today and pointed out three other women whose names they thought had stolen \$41 from them. The accused women accompanied the officer to police headquarters, where one of them was recognized as a well known female entertainer, and another returned missionary, and the third as a matron well known in the neighborhood.

The women, however, who were accused were Mrs. Jessie Browning and her daughter, Miss Mary Turner, who have just arrived from Springfield, Ill. They are en route to Fresno, where Mrs. Browning's father, Rev. F. A. Masters, lives.

Two weeks ago Mrs. Browning left her home because of marital troubles, and with her daughter and son, started on a tour of the world. They carried \$30 with them, which Mrs. Marie carried in a handkerchief secreted in her stocking. They came to the beach today, wishing to wash the surf.

The daughter took out the handkerchief and handed it to her mother, who placed it in a handbag. Later Mrs. Browning got the wadding fever and entrusted her satchel to a stranger, who was seated on the beach. When she again received the satchel an examination showed that the handkerchief was empty and the accusation followed.

Chief Williams was inclined to think the money, which was a small wadded roll of four tens and five fives, slipped from the handkerchief while being handled by daughter and mother. The women, however, were determined to be searched, and this was done by Police Matron Fannie Bixby, who found the money in the handbag.

It was all in gold. They were angry, but self-possessed, and after the examination were allowed to go, with profuse apologies from the chief. Mrs. Browning and her daughter were also convinced of the injustice of their accusation, and returned to the beach to search for the money, but found no trace of it. Their loss leaves them with only their tickets to Fresno and a few dollars in cash.

DAUGHTERS IN REVOLT.
After six months' hard labor in organizing a local court of the Daughters of the Revolution, a row was started just as the chapter was to become a fact, by the appointment from Washington of Mrs. Virginia Marshall Clifton as regent. A dozen of the charter members, who were in the chapter, volunteered the statement that after organizing the chapter, her resignation would be forwarded to Washington. This did not satisfy the disgruntled ones, who say that their eligibility has been established, and the recent officers of the chapter.

Frank Haskell, who conducted a "social club" at West Long Beach, today started just as the chapter was to become a fact, by the appointment from Washington of Mrs. Virginia Marshall Clifton as regent. A dozen of the charter members, who were in the chapter, volunteered the statement that after organizing the chapter, her resignation would be forwarded to Washington. This did not satisfy the disgruntled ones, who say that their eligibility has been established, and the recent officers of the chapter.

Now the dozen have declined to sign the constitution and will abandon the chapter, leaving Mrs. Clifton a regent without a court. It is stated, however, on learning of the matter, that she volunteered the statement that after organizing the chapter, her resignation would be forwarded to Washington. This did not satisfy the disgruntled ones, who say that their eligibility has been established, and the recent officers of the chapter.

Frank Haskell, who conducted a "social club" at West Long Beach, today started just as the chapter was to become a fact, by the appointment from Washington of Mrs. Virginia Marshall Clifton as regent. A dozen of the charter members, who were in the chapter, volunteered the statement that after organizing the chapter, her resignation would be forwarded to Washington. This did not satisfy the disgruntled ones, who say that their eligibility has been established, and the recent officers of the chapter.

Now the dozen have declined to sign the constitution and will abandon the chapter, leaving Mrs. Clifton a regent without a court. It is stated, however, on learning of the matter, that she volunteered the statement that after organizing the chapter, her resignation would be forwarded to Washington. This did not satisfy the disgruntled ones, who say that their eligibility has been established, and the recent officers of the chapter.

THE PAUPER
OF PARK LANE.

BY WILLIAM LEOQUEUX.

(Copyright, 1934, by William Leoqueux.)

"Infernal! infernal!" remarked the hunchback, looking at his cigarette and into the grate. "Didn't the washer take note of the number of the cab?"

"No. That's the unfortunate part of it. Apparently he didn't notice the crawling four-wheeler until he saw Levi come forth and give the signal. And the aristocratic-looking foreigner? Could he recognize him again?"

"He says he could."

"That was last night—eh?"

"Yes."

"There may be some police inquiries regarding a missing foreigner, remarked Lyle, thoughtfully. "If so, his information may be valuable. How did you obtain it?"

"From his own lips."

"Then we had better wait, and watch to see if anybody is reported missing. Certainly that house is one of mystery."

"Sam Statham is unscrupulous. I know him to my cost," Adams remarked.

"And so do I," Lyle declared. "If what I suspect is true, then we shall make an exposure that will startle and horrify the world."

"You mean regarding the foreigner of last night?"

"Yes. I have a suspicion that I can establish the identity of the foreigner in question—a man who has today been missing."

CHAPTER XIV.

"And who was he?" asked Adams, quickly.

"For the present that is my own affair," the hunchback replied. "Suffice it for you to know that we hold Sam Statham in the hollow of our hand."

"I don't know so much about that," remarked Adams, dubiously. "I thought so until this morning."

"And why, pray, has your opinion changed?"

"Because when he came a second time to the window and looked at me, there was a glance of defiance in his eye that I scarcely like. He's wealthy and influential—we are not, remember."

"Knowledge is power. We shall be the victors."

"You are too sanguine, my dear fellow," declared the other. "We are sagging for big game, and to my idea the bait is not sufficiently attractive."

"Statham is unscrupulous—so are we. We can prove our story—prove it up to the hilt. Dare he face us? That's the question."

"I think he dare," Adams replied. "You don't know him as well as I do. His whole future now depends upon his bluff, and he knows it. We can ruin both the house of Statham Bros. and its principal. In the circumstances, it is only natural that he should assume an air of defiance."

"Which we must combat by firmness. We are associated in this affair, and my advice is not to show any sign of weakness."

"Exactly. That's the reason I asked you here tonight, Lyle—to discuss our best step."

The hunchback was silent and thoughtful for a few moments. Then he said:

"There is but one mode of proceeding now, and that is to go to him and tell him our intentions. He'll be frightened, and the rest will be easy."

"Sam Statham is not very easily frightened. You wouldn't be, if you were worth a couple of million pounds," Adams remarked, with a dubious shake of the head.

"I should be if upon me rested the burden of guilt."

"Then your suggestion is that I should go and tell him openly my intentions?"

"Decidedly. The more open you are, the greater will be the old man's terror, and the easier our ultimate task."

"He'll refuse to see me."

"He goes down to the city sometimes. Better call there and present a false card. He won't care to be faced in the vicinity of his mansions and clerks. It will show him from the first that the great house of Statham is tottering."

"And it shall fall!" declared Adams, with a triumphant chuckle. "We hold the trump cards. It is true. The only matter to be decided is how we shall play them."

"They must be played very carefully. If we are to win."

"Win!" echoed the other. "Why, man, we can't possibly lose."

"Suppose he died?"

"He won't die. I'll take care of that," said Adams, with a fierce expression upon his somewhat evil countenance. "No, the old blackguard shall live, and his life shall be rendered a hell of terror and remorse. He made my life so bitter that a thousand times I've longed for death. He's taunted me with my misfortunes, ruined me and laughed in my face, jeered at my unhappiness and flaunted his wealth before me when I was penniless. But through all these years I have kept silence, laughing within myself because of his ignorance that I alone held his secret, and that when I chose I could ruin and crush him."

"He had no suspicion of my knowledge until one blazing day in a foreign city I betrayed myself. I was a fool, I know. But I was soon wiser. I repaid the error by death. I died and was buried, so that he then believed himself safe, and he remained in self-satisfied security until this morning when his gaze met mine through the window. I have risen from the dead," he added, with a short, dry laugh; "risen to avenge myself by his ruin."

"And his death," added the hunchback.

"Don't tell me he shall not die!" cried Adams. "What satisfaction should I have were he to commit suicide? No! I mean to watch his agony, to terrify him and drive him to an existence constantly fearing exposure and arrest. He shall not enjoy a moment's peace of mind, but shall be tortured by science and driven mad by terror. I will repay his evil actions toward me and mine a hundredfold."

"How can you prevent him escaping you by suicide?"

"He'll never do that, for he knows his suicide would mean the ruin of Statham Bros., and perhaps the ruin of hundreds of families. The cunning old hypocrite would rather do anything nowadays than ruin the poor hunchback."

"Yet look at his operations in earlier days! Did he not lay the foundation of the house by the exercise of cunning and unscrupulous double-dealing? Was it not mainly by his influence that a great war was forced on, and did he not clear, it is declared, more than half a million by sacrificing the lives of thousands, and he actually has the audacity to stoic out sums to charities and contributions to hospitals and convalescent homes?"

"The world always looks at a man's present, my dear old chap, never at his past," responded the hunchback. "Unfortunately that is so, otherwise the truth would be remembered and the name of Statham held up to scorn and universal disgust. Yet, Adams went on, "I grant you that he is not much worse than others in the same category. The average crook-ocrat and light vest of the successful city man so very often conceals a black and unscrupulous heart."

"But if you really make this exposure as you threaten, it will arouse the greatest sensation ever produced in England in modern years," Lyle remarked, slowly lighting a fresh cigarette.

"I will make it—and more!" he declared, bringing his fist down heavily upon the table. "I have waited all these

It necessary to become her enemy, you know. And if so, she ought not to be personally acquainted with either of us. Do you follow me?"

"You mean that we may find it necessary to secure Max Barclay's aid at the sacrifice of the girl—eh?"

"His companion smiled meaningly. "We must be careful how we use Barclay," Lyle said. "The young man has his eyes open."

"I know. I'm well aware of that," Adams said, quickly. "He will be of the greatest assistance to us."

"If he has no suspicion,"

"What suspicion can he have? He's laughed the other. "All that we've told him he believes to be gospel truth. Only the night before last we dined together at Romano's, and after an hour at the Empire he took me to his club to chat and smoke."

"He, of course, believes the story of the railway concession to be genuine," Lyle suggested. "Let me see, the concession is somewhere in the Balkans, isn't it?"

"Yes, the railroad from Nisch, in Serbia, across Northern Albania, to San Giovanni di Medua, on the Adriatic. A grand scheme that's been

talked of for years, and which the Sultan has always prevented by refusing to allow the line to pass through Turkish territory.

"Our story is," added Adams, "that His Majesty has at last signed an irrevocable grant of permission and that within a month or so the whole concession will be given over to an English group of whom I am the representative. I saw that the scheme appealed to him from the very first. He recognized that there was money in it, for such a line would tap the whole trade of the Balkans, and by a junction near the Iron Gates of the Danube, take the trade of Roumania, Hungary, and Southwestern Russia to the Adriatic instead of as at present to the Black Sea."

"For the past week I've met Barclay nearly every day. He suggests that, as the railway would be a matter of millions, he should approach old Sam Statham and ask him to lend us his support."

"Does he know Statham?"

"Slightly. But I at once declined to allow him to speak about the scheme."

"Because old Sam, with the aid of

ama, leaning back against his chair.

"Well, I think between the two of us we should not be any distressed."

"You don't think you assist me, do you? It's to assist you and obtain your own ends."

"You know that already."

"But only yesterday you said that you didn't want a picture book."

(To Be Continued)

"I hate this politeness," said the boy, as the company went to the dining-room and left him a picture book. "It makes me feel like a prisoner."

"What is politeness?"

"Why, it's waiting for the other person to speak and getting the other person to speak."

"It is my own affair," answered Adams.

Now, Isn't That Nice?

Isn't it nice to have a hat named after you? You know, all the great actresses in the East have face creams and hair lotions named after them, and all that. So, of course, I feel good about this compliment. Well, I have tried to interest the women of Los Angeles in our Second Floor, that's true, but it's the Sulta and Walata and Hata that have given me the enthusiasm and deserve the credit, but I do feel good about "The Arrow Girl Hat." Just the same, you can't appreciate the compliment until you see the hats themselves. They are just the sweetest ever—at anything like such a price. \$2.95. Why, I used to pay that much for an untrimmed hat, before I found out I could save money on that Hamburger Second Floor. Do come down and look at them. Naturally, I want all the girls in town to be Arrow Girls and wear my hats. Do I wear one? Well, I guess. Yours ever,

THE ARROW GIRL
